Contents of Volume 72

No. 1. JANUARY 1992

BRIEF REVIEW

Tissue-specific regulation of inflammation
H. R. Colten 1

Modulation of NK cell activity by moderate intensity endurance training and chronic ethanol consumption
S. E. Blank, J.-O. Johansson, M. M. Origines IV, and G. G. Meadows 8

Is there energy conservation in amenorrheic compared with eumenorrheic distance runners?
J. H. Wilmore, K. C. Wambsgans, M. Brenner, C. E. Broeder, I. Paijmans, J. A. Volpe, and K. M. Wilmore 15

Energy expenditure of elite female runners measured by respiratory chamber and doubly labeled water
L. O. Schulz, S. Alger, I. Harper, J. H. Wilmore, and E. Ravussin 23

Evaluating flux of labeled albumin into the pulmonary interstitium of sheep lungs
W. R. Riddle, R. J. Roselli, R. E. Parker, and N. A. Pou 29

Bronchial smooth muscle mechanics of a canine model of allergic airway hyperresponsiveness
H. Jiang, K. Rao, A. J. Halayko, W. Kepron, and N. L. Stephens 39

A comparison of interrupter and forced oscillation measurements of respiratory resistance in the dog
J. H. T. Bates, B. Daróczy, and Z. Hantos 46

Increased negativity of interstitial fluid pressure in rat trachea in dextran anaphylaxis
M.-E. Koller and R. K. Reed 53

Brain tissue pH and ventilatory acclimatization to high altitude
S. V. Goldberg, R. B. Schoene, D. Haynor, B. Trimble, E. R. Swenson, J. B. Morrison, and E. J. Banister 58

Ventilation-perfusion relationships in the lung during head-out water immersion
T. Derion, H. J. B. Guy, K. Tsukimoto, W. Schaffartzik, R. Prediletto, D. C. Poole, D. R. Knight, and P. D. Wagner 64

Effect of pulsatile flow on microvascular resistance in adult rabbit lungs
J. U. Raj, P. Kaapa, and J. Anderson 73

Effect of bolus fluid intake on energy expenditure values as determined by the doubly labeled water method
D. Drews and T. P. Stein 82

Lung and chest wall impedances in the dog: effects of frequency and tidal volume
G. M. Barnas, D. Stamenović, K. R. Lutchen, and C. F. Mackenzie 87

Adenosine stimulates breathing in fetal sheep with brain stem section
B. J. Koos, A. Chao, and W. Doany 94

Effects of selective sleep deprivation on ventilation during recovery sleep in normal humans
J. B. Neilly, N. B. Kribbs, G. Maislin, and A. I. Pack 100

Phenylephrine-induced hypertension acutely decreases genioglossus EMG activity in awake humans
E. Garpestad, R. C. Basner, J. Ringler, J. Lilly, R. Schwartzstein, S. E. Weinberger, and J. W. Weiss 110

Effects of inhaled oxygen (up to 40%) on periodic breathing and apnea in preterm infants
Z. Weintraub, R. Alvaro, K. Kwiatkowski, D. Cates, and H. Rigatto 116

A model of dynamic exercise: the decerebrate rat locomotor preparation
T. G. Bedford, P. K. Loi, and C. C. Crandall 121

Effect of dehydration on thirst and drinking during immersion in men
S. Sagawa, K. Miki, F. Tajima, H. Tanaka, J. K. Choi, L. C. Keil, K. Shiraki, and J. E. Greenleaf 128

CONTENTS OF VOLUME 72

In vivo recording of electrical activity of canine tracheal smooth muscle
T. Kondo, K. Tamura, K. Onoe, H. Takahira, Y. Ohta, and H. Yamabayashi 135

Effect of exercise training and chronic glyburide treatment on glucose homeostasis in diabetic rats
L. J. Goodyear, M. F. Hirshman, E. D. Horton, and E. S. Horton 143

Optimal diaphragmatic blood perfusion
F. Hu, A. Comtois, and A. E. Grassino 149

Effect of bronchial smooth muscle contraction on lung compliance
W. Mitzner, S. Blosser, D. Yager, and E. Wagner 158

Input impedance and peripheral inhomogeneity of dog lungs
Z. Hantos, B. Daróczy, B. Suki, S. Nagy, and J. J. Fredberg 168

Dextran sulfate and heparin sulfate inhibit platelet-activating factor-induced pulmonary edema
D. Hocking, T. J. Ferro, and A. Johnson 179

Effect of the chest wall and blood volume on pulmonary distensibility
H. J. H. Colebatch, C. K. Y. Ng, N. Berend, and F. J. Maccioni 186

Noise-induced hypertension and magnesium in rats: relationship to microcirculation and calcium
B. M. Altura, B. T. Altura, A. Gebrewold, H. Ising, and T. Günther 194

Diaphragmatic and ventilatory responses to alveolar hypoxia and hypercapnia in conscious kittens
M. Bonora, M. Boule, and H. Gautier 203

Pressure-dependent increase in lung vascular permeability to water but not protein
I. C. Ehrhart and W. F. Hofman 211

Mechanical properties of human tracheal cartilage
J. K. Rains, J. L. Bert, C. R. Roberts, and P. D. Paré 219

5-Aminolevulinic acid-induced alterations of oxidative metabolism in sedentary and exercise-trained rats
B. Pereira, R. Curi, E. Kokubun, and E. J. H. Bechara 226

Comparison of balloon and transducer catheters for estimating lung elasticity
J. A. Panizza and K. E. Finucane 231

Protamine interaction with the epithelial cell surface
M. W. Peterson and D. Gruenhaupt 236

Long-lasting ventilatory response of humans to a single breath of hypercapnia in hyperoxia
M. Modarreszadeh and E. N. Bruce 242

Blunted hypoxic vasoconstriction in oleic acid lung injury: effect of cyclooxygenase inhibitors
M. Leeman, M. Delcroix, J.-L. Vachiéry, C. Mélot, and R. Naeije 251

Regulation of perfused capillary density in canine intestinal mucosa during endotoxemia
R. Drazenovic, R. W. Samsel, M. E. Wylam, C. M. Doerschuk, and P. T. Schumacker 259

Effect of chronic respiratory load on cytochrome oxidase activity in diaphragmatic fibers
A. R. Bazzy and Y.-J. Kim 266

Group B *Streptococcus*-induced acidosis in newborn swine: regional oxygen transport and lactate flux
E. S. Barefield, W. Oh, and B. S. Stonestreet 272

Effect of acetazolamide on gas exchange and acid-base control after maximal exercise
J. M. Kowalchuk, G. J. F. Heigenhauser, J. R. Sutton, and N. L. Jones 278

Effect of abdominal compression on diaphragmatic tendon organ activity
R. Revelette, S. Reynolds, D. Brown, and R. Taylor 288

Effect of corticosteroids on diaphragm fatigue, SDH activity, and muscle fiber size
M. I. Lewis, S. A. Monn, and G. C. Sieck 293

Alveolar pressure measurement in open-chest rats
P. H. N. Saldiva, W. A. Zin, R. L. B. Santos, D. H. Eidelman, and J. Milic-Emili 302

Exercise training improves left ventricular contractile response to β-adrenergic agonist
R. J. Spina, T. Ogawa, A. R. Coggan, J. O. Holloszy, and A. A. Ehsani 307

Gas dispersion in volume-cycled tube flow. I. Theory
D. Elad, D. Halpern, and J. B. Grotberg 312

Gas dispersion in volume-cycled tube flow. II. Tracer bolus experiments
D. P. Gaver III , J. Solway, N. Punjabi, D. Elad, J. B. Grotberg, and N. Gavriely 321

Microvascular pressure profile in intact in situ lung
D. Negrini, C. Gonano, and G. Miserocchi 332

PGE_1 inhibited PMN attachment to air emboli in vivo during infusion of ZAP without preventing lung injury
T. A. Doerr, D. L. Rosolia, S. P. Peters, M. H. Gee, and K. H. Albertine 340

Influence of diet and carnitine palmitoyltransferase I inhibition on myosin and sarcoplasmic reticulum
H. Rupp, R. Wahl, and M. Hansen 352

Combined effect of 2-deoxy-D-glucose and exercise on plasma catecholamine response
F. Trabelsi, S. Cardin, R. Hélie, G. R. Brisson, and J.-M. Lavoie 361

SPECIAL COMMUNICATIONS

Bioelectrical impedance estimation of fat-free body mass in children and youth: a cross-validation study
L. B. Houtkooper, S. B. Going, T. G. Lohman, A. F. Roche, and M. Van Loan 366

Ventilation-perfusion relationships in isolated blood-free perfused rabbit lungs
D. Walmrath, R. König, C. Ernst, H. Brückner, F. Grimminger, and W. Seeger 374

Factors affecting the accuracy of esophageal balloon measurement of pleural pressure in dogs
G. Dechman, J. Sato, and J. H. T. Bates 383

RAPID COMMUNICATIONS

Reversal of increased microvascular permeability associated with ischemia-reperfusion: role of cAMP
A. F. Seibert, W. J. Thompson, A. Taylor, W. H. Wilborn, J. Barnard, and J. Haynes 389

LETTERS TO THE EDITOR

Ability to remove lactate in endurance-trained and untrained humans
S. Oyono-Enguéllé and H. Freund; D. R. Bassett, Jr. 396

Calculation of saturation and Po_2
G. C. G. Watney; J. W. Severinghaus 399

No. 2. FEBRUARY 1992

BRIEF REVIEW

Metabolic effects of cigarette smoking
K. A. Perkins 401

Metabolic and cardiorespiratory effects of doxapram and theophylline in sleeping newborn piglets
A. Côté, P. W. Blanchard, and B. Meehan 410

Hyperbaric oxygen toxicity: role of thromboxane
J. M. Jacobson, J. R. Michael, R. A. Meyers, M. B. Bradley, A. M. Sciuto, and G. H. Gurtner 416

Muscle carnitine after strenuous endurance exercise
J. Decombaz, B. Gmuender, G. Sierro, and P. Cerretelli 423

CONTENTS OF VOLUME 72

Intermittent acceleration as a countermeasure to soleus muscle atrophy
D. S. D'Aunno, R. R. Robinson, G. S. Smith, D. B. Thomason, and F. W. Booth 428

A comparison of the effect of inhaled diuretics on airway reflexes in humans and guinea pigs
J.-A. Karlsson, N. B. Choudry, C. Zackrisson, and R. W. Fuller 434

Identification of a subsurface area in the ventral medulla sensitive to local changes in P_{CO_2}
F. G. Issa and J. E. Remmers 439

Effects of diaphragmatic ischemia on the inspiratory motor drive
J. S. Teitelbaum, S. A. Magder, C. Roussos, and S. N. A. Hussain 447

Validity of pulse oximetry during exercise in elite endurance athletes
D. Martin, S. Powers, M. Cicale, N. Collop, D. Huang, and D. Criswell 455

Assessment of papain-induced lung injury in isolated lungs by measurements of aerosol deposition and mixing
F. S. Rosenthal and S. Wright 459

Gastric emptying, absorption, and carbohydrate oxidation during prolonged exercise
N. J. Rehrer, A. J. M. Wagenmakers, E. J. Beckers, D. Halliday, J. B. Leiper, F. Brouns, R. J. Maughan, K. Westerterp, and W. H. M. Saris 468

Oxygen delivery and myocardial function in rabbit hearts perfused with cell-free hemoglobin
V. W. MacDonald and R. M. Winslow 476

Metabolic adaptations to training precede changes in muscle mitochondrial capacity
H. J. Green, R. Helyar, M. Ball-Burnett, N. Kowalchuk, S. Symon, and B. Farrance 484

Compounds that increase cAMP prevent ischemia-reperfusion pulmonary capillary injury
W. K. Adkins, J. W. Barnard, S. May, A. F. Seibert, J. Haynes, and A. E. Taylor 492

Lung protection against paraquat is calcium dependent
J. W. Barnard, W. A. Womack, S. M. Smith, T. D. Engerson, and A. E. Taylor 498

Effects of *Perilla* ketone on the in situ sheep lung
V. J. Abernathy, R. J. Roselli, R. E. Parker, and N. A. Pou 505

Effects of dichloroacetate on hemodynamic responses to dynamic exercise in dogs
J. M. Delehanty, N. Imai, and C.-S. Liang 515

Substrate regulation of mitochondrial oxidative phosphorylation in hypercapnic rabbit muscle
S. Nioka, Z. Argov, G. P. Dobson, R. E. Forster, H. V. Subramanian, R. L. Veech, and B. Chance 521

Resistive breathing activates the glutathione redox cycle and impairs performance of rat diaphragm
A. Anzueto, F. H. Andrade, L. C. Maxwell, S. M. Levine, R. A. Lawrence, W. J. Gibbons, and S. G. Jenkinson 529

Compliance of the main pulmonary artery during the ventilatory cycle
B. J. B. Grant and B. B. Lieber 535

Menstrual cycle phase affects temperature regulation during endurance exercise
J. M. Pivarnik, C. J. Marichal, T. Spillman, and J. R. Morrow, Jr. 543

Responses of glutathione system and antioxidant enzymes to exhaustive exercise and hydroperoxide
L. L. Ji and R. Fu 549

Smoke aldehyde component influences pulmonary edema
C. A. Hales, S. W. Musto, S. Janssens, W. Jung, D. A. Quinn, and M. Witten 555

Errors in predicting maximal oxygen consumption in pregnant women
F. K. Lotgering, P. C. Struijk, M. B. Van Doorn, and H. C. S. Wallenburg 562

Role of the diaphragm in chest wall mechanics
O. Lichtenstein, S. A. Ben-Haim, G. M. Saidel, and U. Dinnar 568

Volume infusion produces abdominal distension, lung compression, and chest wall stiffening in pigs
T. Mutoh, W. J. E. Lamm, L. J. Embree, J. Hildebrandt, and R. K. Albert 575

Cardiovascular changes associated with obstructive sleep apnea syndrome
R. Stoohs and C. Guilleminault 583

Dichloroacetate blocks endogenous opioid effects during inspiratory flow-resistive loading
J. J. Petrozzino, A. T. Scardella, T. V. Santiago, and N. H. Edelman 590

Effects of inspiratory diaphragmatic descent on inferior vena caval venous return
M. Takata and J. L. Robotham 597

Viral infection increases contractile but not secretory responses to substance P in ferret trachea
T. C. Murray and D. B. Jacoby 608

Injury in nonischemic lung after unilateral pulmonary ischemia with reperfusion
R. Palazzo, A. Hamvas, T. Shuman, L. Kaiser, J. Cooper, and D. P. Schuster 612

Inflammation and oxygen free radical formation during pulmonary ischemia-reperfusion injury
A. Hamvas, R. Palazzo, L. Kaiser, J. Cooper, T. Shuman, M. Velazquez, B. Freeman, and D. P. Schuster 621

Spectral content of forced expiratory wheezes during air, He, and SF_6 breathing in normal humans
Y. Shabtai-Musih, J. B. Grotberg, and N. Gavriely 629

Anesthesia alters pulmonary vasoregulation by angiotensin II and captopril
D. P. Nyhan, B. B. Chen, D. M. Fehr, P. Rock, and P. A. Murray 636

Antagonistic interaction of laryngeal and central chemoreceptor respiratory reflexes
B. N. Van Vliet and M. Uenishi 643

Increased pulmonary vascular filtration pressure does not alter lung liquid secretion in fetal sheep
D. P. Carlton, J. J. Cummings, F. R. Poulain, and R. D. Bland 650

Effects of exercise on plasma myosin heavy chain fragments and MRI of skeletal muscle
J. Mair, A. Koller, E. Artner-Dworzak, C. Haid, K. Wicke, W. Judmaier, and B. Puschendorf 656

No evidence for brain stem cooling during face fanning in humans
C. Jessen and G. Kuhnen 664

Acute ozone-induced change in airway permeability: role of infiltrating leukocytes
S. R. Kleeberger and B. B. Hudak 670

Mechanisms underlying induced autoresuscitation failure in BALB/c and SWR mice
W. M. Gershan, M. S. Jacobi, and B. T. Thach 677

Use of diazepam for interpreting changes in extravascular lung water
C. A. Dawson, D. L. Roerig, D. A. Rickaby, L. D. Nelin, J. H. Linehan, and G. S. Krenz 686

Methylprednisolone restores sensitivity to β-adrenergic agonists in Basenji-Greyhound dogs
R. A. Sauder, J. D. Tobias, and C. A. Hirshman 694

Regional differences in interstitial fluid albumin concentration in edematous lamb lungs
J. U. Raj and J. Anderson 699

Physiological effects of tapering in highly trained athletes
B. Shepley, J. D. MacDougall, N. Cipriano, J. R. Sutton, M. A. Tarnopolsky, and G. Coates 706

Decay of inspiratory muscle pressure during expiration in anesthetized kyphoscoliosis patients
A. Baydur 712

Phase resetting of the respiratory cycle before and after unilateral pontine lesion in cat
Y. Oku and T. E. Dick 721

Spinal vasopressin modulates the reflex cardiovascular response to static contraction
C. L. Stebbins, A. Ortiz-Acevedo, and J. M. Hill 731

Effect of chronic hypoxia on breathing and EMGs of respiratory muscles in awake ponies
D. R. Brown, H. V. Forster, T. F. Lowry, M. A. Forster, A. L. Forster, S. M. Gutting, B. K. Erickson, and L. G. Pan 739

Effects of a simulated microgravity model on cell structure and function in rat testis and epididymis
J. A. Hadley, J. C. Hall, A. O'Brien, and R. Ball 748

Catecholamines and regional hemodynamics during isovolemic hemodilution in anesthetized pigs
E. C. S. M. Van Woerkens, A. Trouwborst, D. J. G. M. Duncker, M. M. G. Koning, F. Boomsma, and P. D. Verdouw 760

Pulmonary C-fiber stimulation by capsaicin evokes reflex cholinergic bronchial vasodilation in sheep
H. M. Coleridge, J. C. G. Coleridge, J. F. Green, and G. H. Parsons 770

Changes in respiratory activity induced by mastication in humans
G. A. Fontana, T. Pantaleo, F. Bongianni, F. Cresci, L. Viroli, and G. Saragó 779

Quantification of adipose tissue by MRI: relationship with anthropometric variables
R. Ross, L. Léger, D. Morris, J. de Guise, and R. Guardo 787

A comparison of the oxygen drift in downhill vs. level running
K. C. Westerlind, W. C. Byrnes, and R. S. Mazzeo 796

SPECIAL COMMUNICATIONS

Use of plastic materials in oxygen-measuring systems
E. D. Stevens 801

RAPID COMMUNICATIONS

Pulmonary and leg $\dot{V}o_2$ during submaximal exercise: implications for muscular efficiency
D. C. Poole, G. A. Gaesser, M. C. Hogan, D. R. Knight, and P. D. Wagner 805

No. 3. MARCH 1992

BRIEF REVIEW

Potassium and ventilation in exercise
D. J. Paterson 811

Repetitive apneas induce periodic hypertension in normal subjects through hypoxia
J. G. van den Aardweg and J. M. Karemaker 821

Changes in canine latissimus dorsi muscle during 24 wk of continuous electrical stimulation
C. M. Lucas, M. G. Havenith, F. H. Van Der Veen, J. Habets, T. Van Der Nagel, J. M. Schrijvers-Van Schendel, O. C. Penn, and H. J. Wellens 828

Effect of competition on performance of Thoroughbred racehorses
J. D. Harkins, S. G. Kamerling, and G. Church 836

Respiratory and abdominal muscle responses to expiratory threshold loading in cystic fibrosis
F. Cerny, L. Armitage, J. A. Hirsch, and B. Bishop 842

Liquid and protein dynamics using a new minimally invasive pleural catheter in rabbits
V. C. Broaddus and M. Araya 851

Endogenous and exogenous catalase in reoxygenation lung injury
R. M. Jackson, W. J. Russell, and C. F. Veal 858

Evans blue dye as a marker of albumin clearance in cultured endothelial monolayer and isolated lung
C. E. Patterson, R. A. Rhoades, and J. G. N. Garcia 865

Influence of flow on pulmonary vascular surface area inferred from blue dextran efflux data
L. D. Nelin, D. L. Roerig, D. A. Rickaby, J. H. Linehan, and C. A. Dawson 874

Expiratory muscle activity in the awake and sleeping human during lung inflation and hypercapnia
Y. Wakai, M. M. Welsh, A. M. Leevers, and J. D. Road 881

Exercise-induced satellite cell activation in senescent soleus muscle
K. M. McCormick and D. P. Thomas 888

Fetal and maternal body temperatures measured by radiotelemetry in near-term sheep during thermal stress
H. P. Laburn, D. Mitchell, and K. Goelst 894

Nerve stimulation decreases malonyl-CoA in skeletal muscle
C. Duan and W. W. Winder 901

Coronary and systemic vascular response to inspiratory resistive breathing
J. Peters and P. Ihle 905

Effects of acute exercise intensity on plasma lipids and apolipoproteins in trained runners
P. G. Davis, W. P. Bartoli, and J. L. Durstine 914

Transient changes in blood pressure during spontaneous deep breaths in rats with sinoaortic deafferentation
B. H. Machado, H. Mauad, and M. L. Glass 920

Mechanisms of control of alae nasi muscle activity
W. S. Mezzanotte, D. J. Tangel, and D. P. White 925

Adaptations of the diaphragm in emphysema
M. I. Lewis, W.-Z. Zhan, and G. C. Sieck 934

Application of respiratory heat exchange for the measurement of lung water
V. B. Serikov, M. S. Rumm, K. Kambara, M. I. Bootomo, A. R. Osmack, and N. C. Staub 944

Acid-base regulation during exercise and recovery in humans
W. Stringer, R. Casaburi, and K. Wasserman 954

Chemoreceptor and vagal influences on thyroarytenoid muscle activity in awake lambs during hypoxia
J.-P. Praud, E. Canet, and M. A. Bureau 962

Cardiopulmonary regulation after rapid-eye-movement sleep deprivation
S. DeMesquita and G. A. Hale 970

Hemodynamic and hormonal effects of prolonged anti-G suit inflation in humans
G. Geelen, P. Arbeille, J.-L. Saumet, J.-M. Cottet-Emard, F. Patat, and M. Vincent 977

Correlation between oscillations in ventilation and frequency content of the electroencephalogram
A. I. Pack, M. F. Cola, A. Goldszmidt, M. D. Ogilvie, and A. Gottschalk 985

Atrial natriuretic factor and renal sodium excretion during ventilation with PEEP in hypervolemic dogs
G. Christensen, J. F. Bugge, J. Østensen, and F. Kiil 993

Bedside evaluation of the resistance of large and medium pulmonary veins in various lung diseases
J.-L. Teboul, P. Andrivet, M. Ansquer, M. Besbes, N. Rekik, F. Lemaire, and C. Brun-Buisson 998

Adenosine infusion and periodic breathing during sleep

Tolerance and upregulation of acetylcholine receptors follow chronic infusion of *d*-tubocurarine
C. W. Hogue, Jr., J. M. Ward, M. S. Itani, and J. A. J. Martyn 1326

Lung tissue resistance during contractile stimulation: structural damping decomposition
M. S. Ludwig, F. M. Robatto, S. Simard, D. Stamenović, and J. J. Fredberg 1332

Analysis of human chest wall motion using a two-compartment rib cage model
M. E. Ward, J. W. Ward, and P. T. Macklem 1338

Microscopic vs. macroscopic deformation of the pulmonary alveolar duct
D. Yager, H. Feldman, and Y. C. Fung 1348

Vagal contributions to respiratory muscle activity during eupnea in the awake dog
D. M. Ainsworth, C. A. Smith, B. D. Johnson, S. W. Eicker, K. S. Henderson, and J. A. Dempsey 1355

Vagal modulation of respiratory muscle activity in awake dogs during exercise and hypercapnia
D. M. Ainsworth, C. A. Smith, B. D. Johnson, S. W. Eicker, K. S. Henderson, and J. A. Dempsey 1362

Failure of accentuated vertical body movements to induce cardiac-locomotor coupling
R. L. Kirby, S. M. Atkinson, J. E. Donville, M. F. Urdang, D. A. Stanley, S. K. Gupta, and D. A. MacLeod 1368

Locomotor-respiratory coupling during wheelchair propulsion
M.-L. E. MacDonald, R. L. Kirby, S. T. Nugent, and D. A. MacLeod 1375

Determination of heat debt in the cold: partitional calorimetry vs. conventional methods
A. L. Vallerand, G. Savourey, and J. H. M. Bittel 1380

Pulmonary hemodynamics and tissue damage after one lung infusion of *Pseudomonas aeruginosa* in sheep
H. M. Loick, D. J. Dehring, R. Tokyay, H. A. Linares, M. J. Evans, L. D. Traber, S. C. Guha, J. Flynn, and D. L. Traber 1386

Optimal stimulation of paralyzed muscle after human spinal cord injury
R. B. Stein, T. Gordon, J. Jefferson, A. Sharfenberger, J. F. Yang, J. T. de Zepetnek, and M. Belanger 1393

Influence of electrical stimulation on the morphological and metabolic properties of paralyzed muscle
T. P. Martin, R. B. Stein, P. H. Hoeppner, and D. C. Reid 1401

Mechanical implications of in vivo human diaphragm shape
M. Paiva, S. Verbanck, M. Estenne, B. Poncelet, C. Segebarth, and P. T. Macklem 1407

Clearance of ^{99m}Tc-DTPA and experimentally increased alveolar surfactant content
J. A. H. Bos, P. Wollmer, W. Bakker, E. Hannappel, and B. Lachmann 1413

Nasal effects of bradykinin and capsaicin: influence on plasma protein leakage and role of sensory neurons
K. Rajakulasingam, R. Polosa, L. C. K. Lau, M. K. Church, S. T. Holgate, and P. H. Howarth 1418

Endothelin-3 is a potent pulmonary vasodilator in the rat
D. E. Crawley, S. F. Liu, P. J. Barnes, and T. W. Evans 1425

Contractile properties of the rat external abdominal oblique and diaphragm muscles during development
J. F. Watchko, B. S. Brozanski, T. L. O'Day, R. D. Guthrie, and G. C. Sieck 1432

Effects of sprint training on maximal stroke volume of rats with a chronic myocardial infarction
T. I. Musch 1437

Adaptations of diaphragm and medial gastrocnemius muscles to inactivity
W.-Z. Zhan and G. C. Sieck 1445

Oxygen-dependent reperfusion injury in the isolated rat lung
R. G. Eckenhoff, C. Dodia, Z. Tan, and A. B. Fisher 1454

Action of human respiratory muscles inferred from finite element analysis of rib cage
S. H. Loring 1461

Effects of endotoxic shock on diaphragmatic function in mechanically ventilated rats
A. Leon, J. Boczkowski, B. Dureuil, J.-M. Desmonts, and M. Aubier 1466

Structural changes in elastic fibers after pancreatic elastase administration in hamsters
R. R. Mercer and J. D. Crapo 1473

Role of glutamate as the central neurotransmitter in the hypoxic ventilatory response
R. C. Ang, B. Hoop, and H. Kazemi 1480

Effects of inspiratory loading on left ventricular myocardial blood flow and metabolism
S. Khilnani, L. M. Graver, K. Balaban, and S. M. Scharf 1488

Skeletal muscle responses to lower limb suspension in humans
B. M. Hather, G. R. Adams, P. A. Tesch, and G. A. Dudley 1493

Hepatic dysoxia commences during O_2 supply dependence
R. Schlichtig, H. A. Klions, D. J. Kramer, and E. M. Nemoto 1499

Training-induced alterations in young and senescent rat diaphragm muscle
L. E. Gosselin, M. Betlach, A. C. Vailas, and D. P. Thomas 1506

Effects of resistance training on elbow flexors of highly competitive bodybuilders
S. E. Alway, W. H. Grumbt, J. Stray-Gundersen, and W. J. Gonyea 1512

Triangularis sterni and phrenic nerve responses to progressive brain hypoxia
L. O. Chae, J. E. Melton, J. A. Neubauer, and N. H. Edelman 1522

Attenuation of platelet-activating factor-induced airway responses with methylprednisolone succinate in sheep
E. Mansour, W. M. Abraham, and T. Ahmed 1529

Relationship between axial motion and volume displacement of the diaphragm during VC maneuvers
J. A. Verschakelen, K. Deschepper, and M. Demedts 1536

Predicting the time of occurrence of decompression sickness
P. K. Weathersby, S. S. Survanshi, L. D. Homer, E. Parker, and E. D. Thalmann 1541

Mechanisms of pulmonary vasoconstriction induced by chemotactic peptide FMLP in isolated rabbit lungs
H. Tanaka, J. D. Bradley, L. J. Baudendistel, and T. E. Dahms 1549

Convective and diffusive gas transport in canine intrapulmonary airways
H. Schulz, P. Heilmann, A. Hillebrecht, J. Gebhart, M. Meyer, J. Püper, and J. Heyder 1557

Effect of neuropeptides released from sensory nerves on blood flow in the rat airway microcirculation
G. Piedimonte, J. I. E. Hoffman, W. K. Husseini, W. L. Hiser, and J. A. Nadel 1563

Durability of the reproductive axis in eumenorrheic women during 1 yr of endurance training

J. M. Sinard, D. Vyas, K. Hultquist, J. Harb, and R. H. Bartlett 2428

Muscle accounts for glucose disposal but not blood lactate appearance during exercise after acclimatization to 4,300 m
G. A. Brooks, E. E. Wolfel, B. M. Groves, P. R. Bender, G. E. Butterfield, A. Cymerman, R. S. Mazzeo, J. R. Sutton, R. R. Wolfe, and J. T. Reeves 2435

Individuality of breathing patterns during hypoxia and exercise
J. H. Eisele, B. Wuyam, G. Savourey, J. Eterradossi, J. H. Bittel, and G. Benchetrit 2446

Measurement of interrupter resistance in rabbits exposed to methacholine aerosols
P. G. Smith, A. Falahat, and W. A. Carlo 2454

Exercise training prevents decline in stroke volume during exercise in young healthy subjects
R. J. Spina, T. Ogawa, W. H. Martin III, A. R. Coggan, J. O. Holloszy, and A. A. Ehsani 2458

Effect of vagal stimulation and parenteral acetylcholine on canine trachealis muscle shortening
M. Okazawa, Y. Wakai, S. Osborne, P. D. Paré, and J. D. Road 2463

Evaluation of prostaglandin $F_{2\alpha}$ and prostacyclin interactions in the isolated perfused rat lung
J. W. Barnard, R. A. Ward, and A. E. Taylor 2469

Spontaneous injury in isolated sheep lungs: role of resident polymorphonuclear leukocytes
D. B. Pearse and J. T. Sylvester 2475

Comparison of arousal responses to tracheal and face mask occlusions in sleeping newborn piglets
K. J. Barrington and R. G. Allen 2482

Regulation of glucose turnover at the onset of exercise in the dog
P. D. G. Miles, D. T. Finegood, H. L. A. Lickley, and M. Vranic 2487

MODELING IN PHYSIOLOGY

Effects of nonideal input functions on PET measurements of pulmonary blood flow
J. Markham and D. P. Schuster 2495

SPECIAL COMMUNICATIONS

Estimation of glucose production during exercise with a one-compartment variable-volume model
D. T. Finegood, P. D. G. Miles, H. L. A. Lickley, and M. Vranic 2501

RAPID COMMUNICATIONS

Regulation of skeletal muscle dihydropyridine receptor gene expression by biomechanical unloading
S. Kandarian, S. O'Brien, K. Thomas, L. Schulte, and J. Navarro 2510
